

## Vandal Resistant Deck Mounted Dome Head Tap

Stainless Steel

### Applications

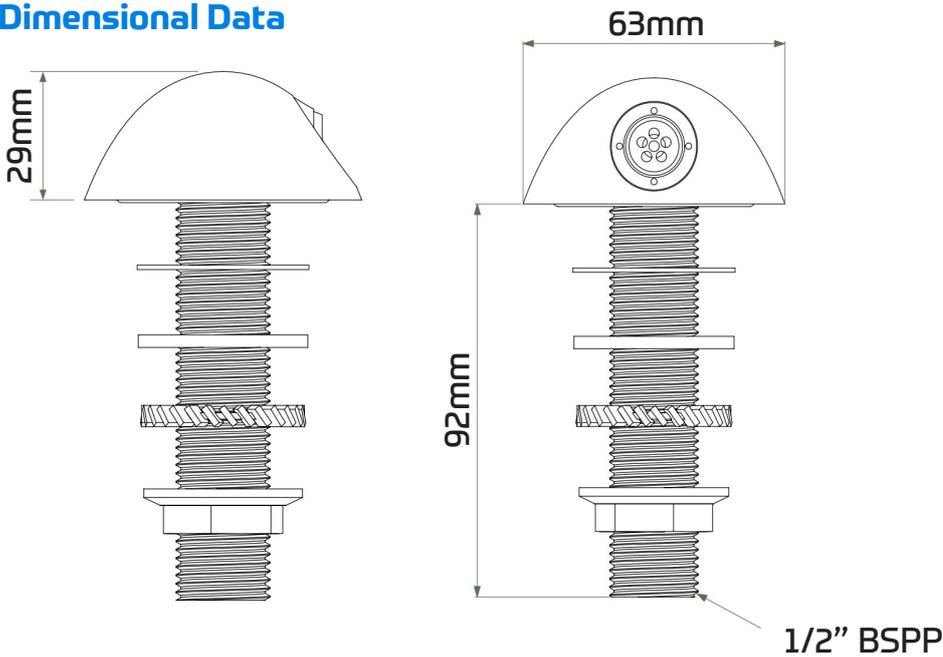

The Sentinel Deck Mounted Adjustable Spout is a high-security, anti-ligature solution specifically engineered for demanding environments such as healthcare facilities, correctional institutions, and high-traffic public spaces

### Features

- ~ Anti-Ligature Dome Design: Features a smooth, hemispherical head specifically shaped to prevent the attachment of cords or ligatures, maximising occupant safety
- ~ Precision Flow Control: Equipped with 4mm flow holes to provide a consistent, anti-splash water stream
- ~ Standard 1/2" BSP thread and includes a crush washer to ensure a leak-free, high-torque seal to the mounting surface
- ~ Requires a split ring tool or two-pronged pliers for adjustment, ensuring only maintenance staff can modify the spray angle
- ~ Fits compact spaces plus mounts to any worktop or surface with ease
